**Truck Loading Bins**

### Construction

Resting upon the main support beams of W14 x 68 and columns of W12 x 53, the all steel, prefabricated reinforced upper side panels of 12 ga. and lower panels of 10 ga. are ready to handle your needs for storage.

### Power Unit

Our self contained hydraulic power unit rated at 15 GPM controls with ease the reinforced bin doors for a controlled flow of material into a waiting truck.

### Access

OSHA approved walkways and ladders provide easy access to the distribution conveyor unit.

### Paint

A one coat system with rust inhibitors to meet your color scheme.

### Erection

Our fully illustrated and complete erection manual and the bolted assembly allows for ease of installation by your plant personnel.

### Bin Capacities — Through 138 Units

The best desired storage can be achieved through our inter-connecting modular bin at the best possible cost per unit. (Unit defined - 200 cubic by volume per unit)

QTY	SIZE	CAPACITY	WEIGHT
1	16 Unit	16 Units	32,356#
2	16 Unit	34 Units	67,150#
3	16 Unit	52 Units	99,115#
1	22 Unit	22 Units	35,548#
2	22 Unit	46 Units	72,294#
3	22 Unit	70 Units	106,099#
1	24 Unit	24 Units	41,207#
2	24 Unit	50 Units	79,061#
3	24 Unit	76 Units	116,773#
1	33 Unit	33 Units	45,156#
2	33 Unit	68 Units	85,495#
3	33 Unit	103 Units	125,689#
4	33 Unit	138 Units	166,028#

## Other Equipment Available

- **Mechanical Conveyors — Belt and Chain**
- **Fuel Storage Bin**
- **Fans — Material Handling and Backward Inclined**
- **Explosion Venting**
- **Classifiers — Fuel Prep**
- **Pneumatic — High and Low Pressure Systems**
- **Spark Protection**
- **Filters — Primary and Secondary**
- **Log Yard Residue Reclaim System**
